(Monthly)

(Zoom)

14:30hrs -15:30hrs New York time (ET); 19:30hrs – 20:30hrs (UTC)

We're campaigning to divest Philly from nukes. Four of the financial institutions that manage the Pension Board's assets — Lord Abbett High Yield, Ariel Capital Holdings, Fiera Capital, and Northern Trust — collectively have billions invested in nuclear weapons. We're urging the Philadelphia Board of Pensions to instruct these asset managers to exclude the top nuclear weapons producers from the City's holdings.

Join us on the 1st Sunday of the month at 14:30hrs-15:30hrs (New York time) on Zoom to learn more about the Divest Philly from the War Machine campaign and how to get involved. Please contact Greta at greta@worldbeyondwar.org for more information and the Zoom link.

Webinar: Peace and Justice Conversations: Israeli Nuclear Weapons – Global (Zoom)

00:00hrs (UTC)

Please join Alicia Sanders-Zakre of the International Campaign to Abolish Nuclear Weapons for a discussion of her 2024 report "Israeli Nuclear Weapons: Risks, Consequences and Disarmament."

Israel is one of nine countries with nuclear weapons. Despite widespread acknowledgement by experts and former government officials of their existence, Israel and many Western governments maintain a policy of ambiguity about Israeli nuclear weapons. This pretense cannot continue. Nuclear disarmament is an essential component of a lasting peace agreement between Israel and Palestine, and in the region more broadly. Alicia Sanders-Zakre authored a report

in September 2024 called "Israeli Nuclear Weapons: Risks, Consequences and Disarmament." She brings us what she learned and her expertise on nuclear weapons in general.

Alicia Sanders-Zakre is the Policy and Research Coordinator at the International Campaign to Abolish Nuclear Weapons. She directs and coordinates research on the Treaty on the Prohibition of Nuclear Weapons, the humanitarian impact of nuclear weapons and general nuclear weapons policy.

Previously, she was a researcher at the Arms Control Association and at the Brookings Institution. She has published over 100 news articles, editorials and reports on nuclear weapons and provided expert analysis for newspapers and radio programs. Alicia holds a B.A. in International Security from Tufts University, as well as a certificate of completion in International Nuclear Safeguards Policy from the Middlebury Institute of International Studies and a M.A.S in the International Law of Armed Conflict from the Geneva Academy of International Humanitarian Law and Human Rights

Alicia's activism and interest in working for peace began with us at NH Peace Action! Check out this photo of her with Granny D and Phyllis Bennis taken around 2007 when she was just 12!

Defunding the Pentagon: What it Means to Invest in the People and Planet – Global

(Zoom)

20:00hrs – 21:00hrs New York time (EST); 01:00hrs – 02:00hrs (UTC)

Join CODEPINK for a conversation with Chris Smalls and Steven Donziger about Defunding the Pentagon: What it Means to Invest in the People and the Planet. The anti-war movement started calling for cuts to the massive pentagon budget decades ago, and now the budget topline is nearly one trillion dollars. Figures like Elon Musk, who've been nominated by the incoming Trump Administration to "end government waste" recently focused in on the Pentagon – drawing attention to its audit failures. But Elon Musk represents a very different viewpoint from organizers who have been calling for cuts to the outrageous military budget. The people want reinvestment into our communities. We don't want budget cuts for the sake of budget cuts. That \$1 trillion can be reallocated to fund housing, education, infrastructure, and green transitions. This discussion will highlight the differences in approach to Pentagon cuts between the movement and billionaires like Elon, discuss the pressing needs of the people, and reimagine a world where all those resources go to sustaining life instead of promoting death.

Featuring:

Chris Smalls is the founder and president of the Amazon Labor Union. Under his leadership, the ALU successfully unionized an Amazon warehouse: a historic victory for workers and a titanic defeat for the behemoth corporation. The epitome of an industry disruptor, he inspires students, workers, and communities to use their voices to envision and build a better future. He is also the founder of The Congress of Essential Workers.

Steven Donziger is a lawyer and climate activist who has been the target of an oil company revenge campaign for over 30 years. In 2013, Steven helped Amazon communities in Ecuador win the largest environmental judgment in history when a court ordered Chevron to pay \$9.5 billion (\$12 billion today) to restore ancestral lands despoiled by the dumping of billions of gallons of cancer-causing oil waste. In retaliation, Chevron used its political and financial capital to countersue Steven for contempt of court, strip him of his law license, and detain him at home and prison for close to three years. While Steven continues the battle against Chevron, he also advocates for other victims of corporate malfeasance and offers legal interpretations of human rights issues.

Inauguration 2025 - DC: Demand Peace – Washington DC, US

15:00hrs – 18:00hrs

As people from across the country gather in D.C., we're coming together to demand an end to U.S. intervention, endless wars, and militarism. It's time for diplomacy and justice from Day One. Join us for a vibrant theatrical protest as we deliver must-sign executive orders to stop U.S. intervention, end war profiteering, and redirect military budgets to support communities, the climate, and human needs.

Reducing Congressional Spending for Nuclear Weapons – Global

(Zoom)

The threat of nuclear war is increasing, rather than abating.

Biden's recent actions in the Russia/Ukraine conflict has sharply increased the danger.

The tragic Israel/Gaza conflict continues to expand.

Divest Philly from the War Machine – PA, US / Global

(Monthly)

(Zoom)

14:30hrs -15:30hrs New York time (ET); 19:30hrs – 20:30hrs (UTC)

We're campaigning to divest Philly from nukes. Four of the financial institutions that manage the Pension Board's assets — Lord Abbett High Yield, Ariel Capital Holdings, Fiera Capital, and Northern Trust — collectively have billions invested in nuclear weapons. We're urging the Philadelphia Board of Pensions to instruct these asset managers to exclude the top nuclear weapons producers from the City's holdings.

.
Join us on the 1st Sunday of the month at 14:30hrs-15:30hrs (New York time) on Zoom to learn more about the Divest Philly from the War Machine campaign and how to get involved. Please contact Greta at greta@worldbeyondwar.org for more information and the Zoom link.

FILMS

What I Want You to Know (2023)

“In less than 90 minutes, the documentary presents the often-overlooked perspectives of 13 American veterans, who critically reflect on their lived experiences in post 9/11 warzones. Interspersed with frequent cuts to raw wartime photos and videos, the film transports viewers in a right-seat-ride alongside veterans as they recount a shared quest for truth and justice in the backdrop of traumatic overseas experiences.

Bold Peace: Costa Rica’s Path of Demilitarization / Una Paz Audaz (2016)

A Bold Peace juxtaposes the national policy of Costa Rica’s demilitarization (since 1948-49) with their investment in education, health, and the environment. Pointed parallels and contrasts are made with recent U.S. debates over the national debt, healthcare, the environment and the escalating cost of U.S. militarism. The film features former presidents, Costa Rican government officials, as well as scholars, journalists and citizens of Costa Rica.
